Faculty International Exposure – ICT in Governance Program

R. Sunil Kumar, faculty member of **Government Polytechnic, Tadipatri**, participated in a **two-week International Immersion Program on “ICT in Governance”** organized by the **e-Governance Academy** from **December 6–17, 2021** in **Tallinn, Estonia**.

During the program, he studied **advanced e-Governance models and digital public service delivery systems** implemented in Estonia, one of the world’s leading digital societies. The training provided insights into **digital identity systems, e-Residency programs, and online government services**, highlighting how technology can improve transparency and efficiency in governance.

The program also covered **data-driven governance, cybersecurity frameworks, and citizen-centric digital policy models**. Mr. Sunil Kumar had the opportunity to interact with **international faculty members and academic experts**, gaining valuable global exposure to modern digital governance practices.

This international learning experience will help in **enhancing knowledge in ICT, governance systems, and digital transformation**, which can benefit students and the institution through the integration of emerging technological concepts in education.
